INTRODUCTION

General

This quinquennial edition of the *National Agricultural Library Catalog* contains entries for books, periodicals, and serials cataloged by the Library since January 1966. It supplements the *Dictionary Catalog of the National Agricultural Library, 1862-1965* and was prepared by photoreproduction of the Library's current divided card catalog, begun in 1966. Future cumulations are expected to be computer-produced.

As in the card catalog, the entries in this cumulation are arranged alphabetically under NAMES (authors and titles) and under SUBJECTS (topical headings). Complete cataloging information is given for each entry. Information cards, such as those describing the history of a corporate body or geographic area, are included, as well as author and subject cross-references.

In addition to the volumes for NAMES and SUBJECTS, a separate alphabetical list at the end of the catalog cites TRANSLATIONS OF ARTICLES added to the collection since 1966.

Comments and suggestions about this catalog are welcome and should be addressed to:

Deputy Director for Resource Development
National Agricultural Library
Beltsville, Md. 20705

Cataloging Information

Rules for Entry and Description

Since January 1966, the National Agricultural Library has followed, with some exceptions, the Anglo-American Cataloging Rules. In January 1970, the Library implemented its automated Cataloging and Indexing (CAIN) system for the production of cards for the Public Catalog. These cards are interfiled with the cards prepared manually during preceding years. Requirements and restrictions of the CAIN system result in some departures from the usual content and form of cataloging information on the newer cards. The more obvious differences include the omission of diacriticals and instances of machine-generated capitalization, hyphenation, and punctuation which do not conform with standard practice. Also, only a limited number of notes is permitted; and notes generally found in separate paragraphs are printed together as one. However, translated title for foreign works is given in a separate note on CAIN entries.

Classification

In January 1966, as an aid to research libraries, NAL began to use Library of Congress classification for newly cataloged titles. This publication reflects use of this scheme, as well as the Scheme of Classification for the United States Department of Agriculture Library which was used formerly. Analytics for monographs in series and recataloged serials originally cataloged prior to 1966 are classified in the USDA scheme.

For entries produced under the CAIN system, the call number appears at the bottom left of each entry rather than in the upper left corner. In all instances, lowercase "a," or a capital "A" before a numeral, at the beginning of a classification number, indicates that the publication is issued by the United States Department of Agriculture. The classification number "1," or "1" followed by a decimal point and additional numbers, also indicates a Department publication. Call numbers for some other special types of materials also include special designators, e.g., "Fo" for folios, "j" for juvenile literature, "R" for rare materials, and "Bee Cul" for Bee Culture collection. Still others are not classified and carry only an identifier followed by a location number, e.g., Film 800 for microfilm or TRANSL 1604 for a translated article.

Tracings

Tracings of subject headings and added entries are given in traditional form, except that they are preceded by numerals in parentheses which indicate the broad subject category of the title. These numerals are used only for purposes of sorting entries according to broad category for publication in the monthly issues of the *National Agricultural Library Catalog*.

Except for important publications of the United States Department of Agriculture, ordinarily analytics for monographs in series do not include subject tracings. Since the advent of CAIN, title added entries have been made when appropriate for all analytics and are traced.

Serials

The phrase "Only current numbers kept," following "Apply for issue or volume desired," indicates that the Library has holdings of the serial title only for the current year and the year immediately past. Prior issues are discarded. Of course, such retention policies are subject to change.

Beginning collation for serials is shown only when the Library has the first published issue in hand at the time of cataloging. Serial holdings are not shown. Serial history is excluded except for a note about the immediately preceding entry when a new serial supersedes an earlier one or an issuing office or title change takes place. In the latter case, the change is cataloged as new, but the previously assigned call number is retained.

Cross-references for Oriental Personal Names

Because Oriental personal names are romanized in many ways under variant systems, the Library has provided cross-references showing the name in Oriental characters after the romanized form established in the Library catalog.

Filing Arrangement

Within any given part of the catalog, the page display of entries will make their arrangement obvious. However, some of the more significant filing practices followed by the Library are stated here to facilitate use of the catalog as a whole.

The basic rule calls for arranging all entries in the order of the English alphabet, word by word and alphabetizing letter by letter to the end of each word. Modifications of all letters, including the umlaut, are disregarded.

In general, initials are filed before words beginning with the same letter. Abbreviations are arranged as if spelled in full. Initials used for geographic names are treated as abbreviations, i.e., filed as if spelled out.

"See also" references and history cards are filed before entries of the same heading. Entries for editions of works are filed with the latest first.

In the NAMES volumes, personal surnames are arranged before other entries beginning with the same word. Under an author's name, personal or corporate, all works by the author are filed before works about the author.

In SUBJECTS volumes, inverted headings and headings followed by a parenthetical term or by a subheading are interfiled in one alphabet, disregarding punctuation.

For TRANSLATIONS OF ARTICLES, the author's name is listed in the form in which it appears on the translation. Entries for an author are interfiled whether or not forenames are spelled out and whether or not a joint author appears in the heading.

AVAILABILITY OF REFERENCES CITED

Free Distribution. Most of the printed publications of the Department of Agriculture, and publications issued by the State Experiment Stations and the State Agricultural Extension Services, may be obtained free of charge by applying directly to the issuing agency. The National Agricultural Library does not distribute them.

Loans. The National Agricultural Library lends most books from the collections to the following groups for one month:

1. All employees of the U.S. Department of Agriculture;
2. USDA Field Libraries, land-grant colleges, and network libraries;
3. The National Library of Medicine, the Library of Congress, and foreign national libraries;
4. Approved professional societies and research institutions;
5. Selected libraries with which NAL shares reciprocal arrangements; and
6. Approved U.S. Government and foreign embassy personnel working in the Washington metropolitan area.

Serials and other noncirculating materials are available for use only in the Library or its designated reading rooms in the Washington, D.C., area. The facilities of these reading rooms may be used by qualified researchers and students from the general public.

Photoduplication. The Library reserves the right to provide photocopy in lieu of loan of the serial materials to USDA employees at no cost to the requesters. Others may purchase microfilm or electrostatic copies of documents from the Photocopying Service, National Agricultural Library, U.S. Department of Agriculture, Beltsville, Maryland 20705. Copying charges are:

MICROFILMS:	\$1.00 for each 30 pages or fraction copied from a single article or book.
ELECTROSTATIC COPIES:	\$1.00 for each 10 pages or fraction copied from a single article or book.

Payment must accompany the order. Cash, Library coupons, check, or money order drawn to the National Agricultural Library, USDA, are acceptable. Library coupons, valued at \$1.00 each, may be purchased in any quantity from the Library's Photocopying Service. Payment for orders originating outside the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents deposit funds cannot be honored. Credit may be extended only to U.S. Government agencies and selected institutions. Billing address should be indicated.

- APPLICATION OF A STATISTICAL MODEL FOR STABILITY OF PRODUCTION IN GRAIN SORGHUM SORGHUM BICOLOR (L.) MOENCH.
Reich, Vernon Henry, 1939-
Application of a statistical model for stability of production in grain sorghum Sorghum bicolor (L.) Moench. Ames, 1968.
125 l. illus.
Thesis - Iowa State University of Science and Technology. Authorized facsimile by University Microfilms, Ann Arbor, 1970.
Bibliography: leaves 112-115.
(70) I. Title.
- DISS 69-9888
- APPLICATION OF AIR JETS WITH A VORTEX TO IMPROVE PENETRATION OF AIR-BORNE INSECTICIDE SPRAYS INTO DENSE FOLIAGE OF CITRUS TREES.
Zucker, A
Application of air jets with a vortex to improve penetration of air-borne insecticide sprays into dense foliage of citrus trees; final report of research conducted under grants authorized by U.S. Public Law 480. Bet Dagan, Volcani Institute of Agricultural Research, 1969.
70 p. illus.
Bibliography: p. 68-69.
(35) 1. Insecticidal vapors. I. Zamir, N. II. Volcani Institute of Agricultural Research. III. National and University Institute of Agriculture. IV. Title.
- SB953.Z8
- THE APPLICATION OF CONTROL THEORY TO PHYSIOLOGICAL SYSTEMS.
Milhorn, Howard T
The application of control theory to physiological systems. Philadelphia, W.B. Saunders, 1966.
386 p. illus.
Includes bibliographies.
(50) 1. Biological control systems.
I. Title.
QH508 .M52
- Application of distributions to the theory of elementary particles in quantum mechanics.
Schwartz, Laurent.
Application of distributions to the theory of elementary particles in quantum mechanics. New York, Gordon and Breach, 1968.
134 p. illus. (Documents on modern physics)
Title on spine: Elementary particles in quantum mechanics.
Bibliography: p. 132.
(10) 1. Quantum theory. 2. Particles
- (continued on next card)
- (Nuclear physics) I. Title. II. Title: Elementary particles in quantum mechanics.
- APPLICATION OF ELECTROFORMED PRECISION MICROMESH SIEVES TO THE DETERMINATION OF PARTICLE SIZE DISTRIBUTION.
Daeschner, H W
Application of electroformed precision micromesh sieves to the determination of particle size distribution. [Philadelphia], 1958.
26-50 l. illus. (American Society for Testing and Materials. Special technical publication, no. 234)
Bibliography: leaf 47.
(40) 1. Sieves. 2. Particle size determination. I. Seibert, E E. II. Peters, E D. III. Title. IV. (Series).
- FILM 868
- Application of food irradiation in developing countries.
Panel on Application of Food Irradiation in Developing Countries, Vienna, 1964.
Application of food irradiation in developing countries; report. Vienna, 1966.
183 p. (International Atomic Energy Agency. Technical reports series no.54) STI/DOC/10/54.
Includes bibliographies.
(05) 1. Radiation sterilization. Congresses. 2. Food, Irradiated. Congresses. I. Joint FAO/IAEA Division of Atomic Energy in Agriculture. II. Title. III. (Series)
- A58.9
R31 Application of granular herbicides to ornamental plant materials in nurseries.
no.96 Mahlstedt, John P.
Application of granular herbicides to ornamental plant materials in nurseries, by J.P. Mahlstedt and W.G. Lovely. Washington, 1966.
15 p. illus. 26 cm. (U.S. Agricultural Research Service. ARS 42-96) Bibliographical footnotes.
(11) 1. Herbicides. 2. Plants, Ornamental. Weed control. 3. Nurseries (Horticulture) U.S. I. Lovely, W. G., joint author. II. Title.
- THE APPLICATION OF HEADSPACE GAS LIQUID CHROMATOGRAPHY TECHNIQUE FOR MEASURING QUALITY OF FRESH AND PROCESSED VEGETABLES.
Rasekh, Jamshid G, 1935-
The application of headspace gas liquid chromatography technique for measuring quality of fresh and processed vegetables. [College Park], 1968.
191 l. illus.
Thesis - University of Maryland. Authorized facsimile by University Microfilms, Ann Arbor, 1970. Bibliography: leaves 180-191.
(40) I. Title.
- DISS 69-14192
- The application of hydrological techniques to flood forecasting for the lower Macleay Valley.
Body, D. N.
The application of hydrological techniques to flood forecasting for the lower Macleay Valley; Macleay Valley flood forecasting assignment. Melbourne, 1962.
21 p. illus. (Australia. Bureau of Meteorology. Working paper 61/782)
(14) 1. Flood forecasts. 2. Macleay River Basin, New South Wales. I. Watson, B. II. Title. III. (Series)
- APPLICATION OF INFRA-RED RADIATION IN FOOD PROCESSING.
Ginzburg, Abram Solomonovich
Application of infra-red radiation in food processing. Cleveland, C. R. C. Press, 1969.
412 p. illus. (Chemical and process engineering series)
Translated from Russian. Bibliography: p. 390-406.
(15) 1. Food. Processing. 2. Radiation. Effect on food. I. Title.
- TX609.G52
- APPLICATION OF MIXED HAEMADSORPTION, A MIXED ANTIGLOBULIN REACTION, TO SOLUBLE ANTIGENS FIXED ON GLASS SLIDES.
Jonsson, Jonas
Application of mixed haemadsorption, a mixed antiglobulin reaction, to soluble antigens fixed on glass slides. Copenhagen, Munksgaard, 1969.
154 p. illus. (Acta pathologica et microbiologica scandinavica. Supplementum 202)
Bibliography: p. 151-154.
(25) I. Title.
- 448.3 Ac8 SUPPL.202
- THE APPLICATION OF MODERN PHYSICS TO THE EARTH AND PLANETARY INTERIORS.
North Atlantic Treaty Organization.
Advanced Study Institute
The application of modern physics to the earth and planetary interiors. New York, Wiley-Interscience, 1969.
692 p. illus.
Includes bibliographies.
(65) 1. Geophysics. Addresses, essays, lectures. 2. Astrophysics. Addresses, essays, lectures. I. Runcorn, S.K. II. Newcastle-upon-Tyne. University. School of Physics. III. Title.
- QC806.N6
- THE APPLICATION OF NUCLEAR ENERGY TO AGRICULTURE.
Mch, Carl C
The application of nuclear energy to agriculture; annual report to the United States Atomic Energy Commission. Turrialba, 1969.
[63] 1. illus. (NYO-2043-194)
Contract AT(30-1)-2043. Reproduced copy. Bibliography: leaf [62].

- Armenia.
- Name of a geographic region and ancient kingdom in Asia Minor, now usually regarded as comprising the northeastern part of Turkey and the Armenian S.S.R., the latter in southern Transcaucasia in the extreme southern part of European U.S.S.R.
Here are entered works issued by the jurisdiction prior to the formation of the Soviet republic, Armenian S.S.R., in 1936. For works issued later by the Soviet republic, See Armenian S.S.R. Turkish Armenia has no political designation.
For all subject entries, See Armenia.
- Armenian S.S.R.
- Became a constituent republic of the U.S.S.R. in 1936.
Works issued by this republic beginning 1936 are entered under this name; prior to this date, under Armenia.
For all works about this republic and the geographic region of Armenia, See subject entry, Armenia.
